

# PEACE TERMS ARE UNACCEPTABLE TO AUSTRIA

## OLD COMPANY G. WILL ARRIVE IN CHICAGO TONIGHT

Dixon's Artillerymen Are Speeding Toward Home.

There are smiles in old Kentucky, There are smiles in Idaho, There are smiles from Maine to California— From Wisconsin to New Mexico; There are smiles all over this great nation, In whatever state your footsteps fall, But the smiles in dear old Lee county Are the smiles that are best of all.

Every citizen of Lee county who expects to be in Dixon one week from tomorrow, Thursday, June 12, is asked to learn the above chorus and sing it every time one of the bands is heard playing that popular favorite, "Smiles." For the chorus, written by Mrs. John O. Trippier of Peru, Ind., formerly of Dixon has been sent to the celebration committee and has been adopted as the official song of the day.

The spirit of the song is expected to reflect thoroughly the feelings of the hundreds of Lee county folk who will gather here to take part in the county's big welcome home celebration to its returned soldiers, sailors, marines and nurses.

Are Speeding Homeward.

Today the members of the 123rd Field Artillery, including the boys of old Co. G, are speeding toward Chicago on the last leg of their journey toward Camp Grant, their discharges and HOME. The 123rd is a part of the Fifty-eighth Artillery Brigade, the commander and organizer of which, Brigadier General Henry D. Todd, passed through Chicago yesterday en route to Camp Grant.

Gen. Todd, known as "the general with a wound stripe" was accompanied by his aid, Lieut. Stanley G. Harris. Lieut. Harris is a son of the late N. W. Harris, founder of the Harris Trust & Savings Bank.

"I have been ordered to Camp Grant for temporary service," said the general, who is a regular army man. "I hear you have a great reception planned for my boys. I'm glad of it. Nothing's too good for them, I tell you."

Finest in the World.

"You see, I know these boys pretty well. I have been with them from the start. They're the finest bunch of fellows in the world."

"How did you get your wound stripe, general?"

"Oh," laughed the general, stroking his grizzled mustache, "that is nothing. A splinter of bursting shell at Geesnes hit me in the face, that is all."

"But I mustn't take all the credit. No one man in this brigade, however, deserves the credit."

## CHICKENS MUST BE KEPT PENNED UP IN THIS CITY.

Council Passed Poultry Control Measure Last Evening.

The "chicken" ordinance was passed last evening at the regular weekly meeting of the city council, with one change being made. It was originally planned to do away with the practice of keeping chickens or other poultry nearer than 40 feet to any residence, this was altered last evening on motion offered by Commissioner Armstrong and cut down to 20 feet.

The new ordinance provides a fine of not less than one dollar or more than five dollars penalty for allowing chickens or other poultry to run at large within the city limits. The second part of the ordinance provides a penalty of not less than one dollar or more than \$15 fine to be imposed on any person or corporation keeping or confining chickens or other poultry closer than 20 feet to any dwelling house.

The meeting was the shortest that has been held since the new council took hold of the reins of the city government. There was very little business to come before the body and after adopting the ordinance and allowing the semi-monthly bills, which amounted to \$3,643.21, the council adjourned.

## Transportation in Paris at Standstill

By Associated Press Leased Wire  
Paris, June 4.—Paris walked to work this morning, no subways, tram cars or taxi buses being in operation because of the strike here. The situation is reported unchanged.

The employees of the street car and motor bus organizations adopted a resolution declaring that the workers would remain out until full satisfaction was received for their demands for the proper application of the 8 hour day act and for wages in keeping with the increased cost of living.

## YANKEE PESSIMISM AN INSULT TO GOD DECLARED BANKER

George Allen, New York Financier, Made Address Here.

"To say that the world is growing worse instead of better would be an insult to Almighty God, and the lowest kind of blasphemy," declared George E. Allen of New York, a member of the American Institute of Banking, in an address at the meeting of the bankers of Group Three of the Illinois State Bankers' Ass'n. at the Elks club in Dixon yesterday afternoon.

Mr. Allen's statement was made at the close of a very interesting and hopeful address on the bankers' place in readjustment program. He declared that there is no ground for any pessimism among American business interests; but on the other hand, he said, all should be optimists. History, said Mr. Allen, shows that something beautiful comes out of the darkest hours, and he cited the discovery of coal a few hundred years ago when the world was facing a fuel famine; the coming of the electric trolley cars when communities had outgrown the old horse-drawn cars; and the fact that not many years ago the Standard Oil company was making the greatest effort to find some use for its bi-product—gasoline. On the lessons gained in our history, he said, we may

## OVERLAND PLANT CLOSED BECAUSE OF GREAT RIOTS

No Attempt is Made to Operate Until Late Troops Arrive.

By Associated Press Leased Wire  
Toledo, O., June 4.—The situation is at high tension here today after the labor riots of yesterday when two persons were killed and 19 others injured near the Willys-Overland plant. With the plant again shut down at the request of city officials, Mayor Schreiber admits that the situation is beyond his control. No word has come from Columbus as to the sending of troops here.

Crowds again gathered at the plant this morning but found a sign giving notice of the shut down. There is no report of further violence. In the section of the city near the plant and populated largely by former Overland workers, feeling against the soldiers is running high. Leaders of the latter today claimed that they shot into the crowd last night only after a score of shots had first been directed at them. The shots by the soldiers were declared to be in self-defense.

By Associated Press Leased Wire  
Toledo, O., June 4.—Operations at the Willys-Overland automobile company were at a standstill today as a result of the rioting last night in which two persons were shot to death and seventeen injured. The plant opened a week ago Monday after 2 weeks of idleness.

## Liner Imperator and Another Ship Collide

By Associated Press Leased Wire  
New York, June 4.—The former German liner Imperator which sailed from Hook port yesterday for Brest collided about 300 miles northeast of Sandy Hook last night with the steamship, Agwilda, from Rotterdam for New York. A wireless message from the Agwilda stated that she was proceeding for this port under her own power but requested a convoy. As no word was received from the Imperator she is presumed to have resumed her voyage.

## London Derby Won By Grand Parade

By Associated Press Leased Wire  
London, June 4.—Grand Parade won the derby at Epsom down today. Buchanan was second and Paper Money was third. Thirteen horses ran.

Rev. E. C. Lumsden took part in a missionary meeting at the Sterling M. E. church last evening.

## ALLEN D. ALBERT TELLS CITY HOW TO GROW BIGGER

Community Council is Shortest Route to Attainment.

If Dixon follows the suggestions for community cooperation and uplift, through a community council, as suggested last evening by Dr. Allen Albert, well known expert in this work, there will be few, if any, cities in the country better organized for the future tasks in community life.

That speaker, addressing a large open-air meeting last evening on the courthouse square, minced no words in outlining a solution for the problems of a city like Dixon. That his suggestions hit a responsive chord was evidenced by the frequent interruptions of applause from the audience.

Dr. Albert is a speaker one could hear hours without tiring. He has a most pleasing delivery and punctuates his pointed remarks with applicable stories, actual experiences in his work of pointing the way to community cooperation to countless cities of the United States.

Has Long Studied Problem.

To Dr. Albert the subject of community uplift is second nature. So long has he been engaged in this work and so wide the experience he has gained, that he is able to see at a glance the needs of a community. He pointed out needs of this community, which, if granted, will transform Dixon in many ways.

In his address last evening he pointed out a number of circumstances which often divide a city and prevent constructive progress. Included in these is division over politics and religion and class prejudice.

In reference to politics he said that no community can thrive and advance if many of the influential workers decline to co-operate, because they happen to be antagonistic to each other's political views. He illustrated instances where cities were split almost beyond hope because the leaders of two parties, having large followings, refused to co-operate.

Religious Differences.

One of the most ridiculous divisions, in the belief of Dr. Albert, is that over religion. Differences between Protestants and Catholics in some communities reach the point of hatred, and in some cases divisions between denominations of Protestants create the same feeling. He bitterly assailed members of any church who will not co-operate for a better city because another worker, or set of workers, happens to be affiliated with another denomination.

Class Prejudice.

Fully as nonsensical as the religious situation just related is that created by classes. Dr. Albert said he always was interested in the subject of "clothing."

## ASSURED OF CROWD AT BOND CREMATION

Members of Dixon lodge of Elks are responding to the notices sent out a few days ago in which they were urged to forward their reservations for the banquet and entertainment to be held on Monday evening of next week, when the last of the bonds on the club will be cremated. Reservations are coming in very rapidly, according to reports from the committee in charge, and local members are urged to lose no time in returning their cards.

Out of town Elks are sending in requisitions for seats at the banquet table Monday evening but the Dixon members and those belonging to this lodge and living out of town will be given a choice. The policy of "first come, first served" has been adopted by the committee and is being carried out in the making of reservations.

## SALES BARN NEARLY READY FOR EVENTS

Contractor Baume is making rapid strides toward the completion of the sales pavilion in Dementown. All of the interior of the old Princess theater has been torn out and removed to the new location for the purpose of finishing up the sale ring portion of the building. The theater seats will be so arranged as to provide a good view of the ring.

The exterior of the building has been overhauled and the metal front is now being put into place. The contractor will have the work completed ready for the first sale to be held by the Rock River Valley Breeder's Sales company on June 25.

## KOSTUK PURCHASED CUMMINS' BUSINESS

Thomas Kostuk, who was formerly connected with the Frank Forman tailoring establishment has purchased the business formerly conducted by the late John E. Cummins at 80 Galena avenue, and will continue it as a first-class tailoring shop for ladies and gentlemen. After July 1 he will occupy the south room of the Eli Baker building, formerly occupied by the Feder.

## REPORT UNFAVORABLY HOME RULE BILL TO LOWER HOUSE TODAY

Fight on Floor May Be Expected When Bill is Taken Up.

By Associated Press Leased Wire  
Springfield, Ill., June 4.—By a vote of 41 to 6 the senate this afternoon passed the Glackin bill establishing one-half the full cash value of property as the assessed value for taxation purposes which would permit cities to double their bonded indebtedness. The measure which now goes to the house was drawn to obviate a constitutional difficulty. Under its provisions Chicago would be enabled to issue \$27,000,000 in additional bonds. The bill carries a referendum.

## HOME RULE BILL DISAPPROVED.

By Associated Press Leased Wire  
Springfield, Ill., June 4.—The "home rule" bill of Representative Wanless, intended to give cities control over public utilities within their boundaries, was reported out with an unfavorable recommendation by the house public utilities committee early today. The vote was 19 to 2. Representatives O. W. Smith of Decatur and Edwin Perkins of Lincoln opposing the committee report.

Illinois municipalities, organized as the "home rule league," have made a consistent fight to get the Wanless bill to a vote in the house. An attempt to non-concur in the committee report is expected on the house floor.

Representative Snell of Carlinville had announced that he would lead a "strike" of democratic members unless the "home rule" measure was sent out by June 3.

The utilities committee took no action on the Bippus bill to repeal the public utilities act.

Other measures killed were intended to validate contracts made between cities and utility corporations prior to 1913.

## \$2 Minimum Tax Rate

By amendment of the Brady bill, passed by the senate, and reported back to the house by the revenue committee today, a maximum tax rate of 2.25 is fixed for Chicago and of \$2 for down state cities. In the case of the latter, a provision for a referendum was inserted when it should be desired to increase the rate above the \$2.25 as present. The existing law contains the referendum clause, but it was the intent of the Brady bill to eliminate this feature with a limit of three years on the city tax increase.

The house revenue committee also amended the July law § 351 by Brady to furnish a general school rate of \$2 instead of \$1.20 and allowed the increase in the tax rate for Cook county from 45 to 55 cents to remain unchanged.

Chicago traction bills were to get a hearing before the house municipalities committee this afternoon. Aldermen Guernsey, Olson, Serwatz and Capitan were on hand to present the views of the city council.

Plans to consider the Glackin bills to increase bonding power of cities last night went awry and the measure went over indefinitely.

## Pass Road Material Bill.

By a vote of 115 to 9 the house today passed the Hicks bill repealing the existing statute which forbids the use of patented materials in road construction. It goes to the senate.

Majority Leader Shurtliff in a speech urged passage of the measure as a means of producing competition with manufacturers of brick and cement, now used almost exclusively.

"I want to say in this connection," said Mr. Shurtliff, "that I hope the bill to permit the state to manufacture its own cement will pass also."

The house passed 5 to 23, the Meents bill codifying motor vehicle laws and proposing more severe penalties for automobile stealing.

A bill proposing the creation of a committee to sit after the legislature adjourns to continue the investigation of Zion City was ready for introduction in the house today. It recites that lack of time and refusal of Zion City officials to answer subpoenas would make an adequate investigation by the present committee impossible during the present legislative session.

The senate today without a record vote adopted the Daily resolution memorializing congress to adopt a forestry program in order to conserve timber supplies.

## SCHEDULE OF THREE TRAINS IS CHANGED

The time of but three trains was changed in the new time card which went into effect on the Chicago & North-Western this week, and contrary to rumors in some railroad circles no trains were added to the service. The time of but one east bound train, No. 28 (Sterling passenger) is changed. That train will leave Dixon at 7:29 a. m. hereafter, instead of at 7:25. Its time of arrival in Chicago, 10:45 a. m., is unchanged.

Train No. 11, west bound, now leaves Chicago at 5:10 p. m. instead of at 5:00, and arrives in Dixon at 7:57 instead of at 7:52. Train No. 25, also west bound, leaving Chicago at 6:10 p. m., now arrives in Dixon at 9:12 p. m. instead of at 9:32 p. m.

## GOVERNMENT TO WIPE OUT REDS IN GREAT DRIVE

Dragnet Thrown Out in Many Cities to Pull in Anarchists.

Will Wipe Out Anarchists.  
By Associated Press Leased Wire  
Washington, June 4.—That efforts of anarchists to create a reign of terror through destruction of life and property which had its climax in attempts on lives of prominent men in eight cities Monday night not only failed in its purpose but has resulted in action by organized government that is expected to wipe out the anarchists themselves, was evident here today. Following public announcement last night by Attorney General A. Mitchell Palmer that the purposes of the department of justice are the same now as they were before, which was in turn followed by a statement telling of the creation of a new bureau by the department with Wm. J. Flynn as its head and which will have as its paramount duty the crushing of the anti-government movement in this country, agents of the federal government throughout the country and detective forces in this and scores of other cities today renewed with vigor their efforts to run down those responsible for Monday night's bomb explosions.

## No Tangible Clue.

Although the authorities are working behind a tightly drawn veil of secrecy for obvious reasons, it was stated that despite intimations yesterday that the identity of the man killed here by his own bomb when he attempted to assassinate Attorney General Palmer, had been established no tangible clues that might lead to apprehension of the plotters had been found. Chief Flynn, himself regarded as the foremost authority in the country on anarchists and their

## SPIRITUAL MUSIC NEEDED IN AMERICA

Prof. W. L. Tomlins presented a unique idea in the use of music at the Y. M. C. A. Monday evening, giving a brief history of music and illustrating the difference between music from the standpoint of sound only, and music with a spiritual background. "Singing," he said, "is not true music unless the singers spiritual being is thrown into it. Body, mind and spirit must enter into good music. Music makes a person alive in his innermost being and he will pulse with the great world life all around him; he will be filled with the joy of living, tireless in energy, just as when a child is in touch with his play-world."

"This is our work, to purify a child's nature so that his voice is an sincere as it is sweet; to ennoble him by contact with the highest in thought and feeling that his heart and brain have produced; to have him know that his fellow is his brother and God is his father; and then send him, a missionary, to his home. This is the use to which he put music, and measurably we accomplish our purpose."

Mr. Tomlins declared that for the last 10 years there has been no spirituality in the music of the Germans, which accounts for their not being opposed to war.

## CHILDREN TO MEET FOR UNION SINGING

All Dixon girls between the ages of 8 and 14 and all boys between the ages of 8 and 12 are invited to meet at the Y. M. C. A. at 10:30 o'clock Saturday morning to organize a community singing chorus, of which Miss O'Brien will have charge. Those children who were in Miss O'Brien's charge last year are especially invited. Parents are urged to send their children to this meeting as there is a need for more community singing.

## ARMORY IS LEASED FOR 2-YEAR PERIOD

That the state of Illinois will continue to maintain a military organization in Dixon was shown this morning when Col. O. E. Tripp of the Adjutant General's office released the Armory in the George J. Downing building for a period of two years beginning July 1. Col. Tripp also intimated that Company F, Sixth Ill. Reserve Militia, would soon be supplied with overcoats, the state military authorities having ordered 3,000 top coats for its soldiers.

## FORMER DIXON LADY DIED IN CHICAGO

Word has been received by friends here of the death in Chicago Monday of Mrs. James Hogan, formerly Miss Emma Hegert, of Dixon, who will be remembered by many people of this city. They recall that her father at one time conducted a drug store here. The funeral was held in Chicago this afternoon, the body to be cremated and the ashes to be sent to Ambey for burial at some future time.

## FOOD SURPLUS FROM COMING HARVEST TO SUPPLY ALL EUROPE

Hoover Says America is Depended Upon for Much Assistance.

By Associated Press Leased Wire  
Paris, Tuesday, June 3.—(Delayed)—There is a sufficient surplus of food indicated from the coming harvests to supply Europe and meet the needs of the world unless some unexpected catastrophe happens to the world's harvests, according to a statement issued today by Herbert C. Hoover, the head of the allied organization.

The bread budget balances, but the surplus of the American crop of wheat and rye this year will be needed. The statement says that most of the trading in wheat and rye will be in the hands of the governments.

## European Crops Fair

Other figures gained from the survey made by the organization and various governments indicate that the sugar crop in eastern Europe this year will be 65 per cent of pre-war normal, the wheat and rye crop 77 per cent and the vegetable harvest about normal. Since the war, it is estimated, Europe has lost 18,400,000 cattle, 39,000,000 hogs, and 8,600,000 sheep.

After estimating the European consumption of wheat and rye at 2,250,000,000 bushels, of which between 700,000,000 and 850,000,000 bushels will have to be imported, the statement continues:

## U. S. Crop is Needed

"The available breadstuffs to Europe from the producing countries will probably lie between 770,000,000 and 850,000,000 bushels. It would appear therefore that the world's bread budget will balance next year but within narrow margins. In any event the present indications are that the American bumper wheat and rye crops will be needed. The principal importing European governments have all guaranteed their farmers higher prices at higher levels than the American guarantee and all are involved in bread subsidies. There will not be much likelihood of much private trade in wheat next year outside of government buying."

## New Nations Hungry.

"The fifteen new governments that have sprung from the old central Europe have been slowly evolving during the period since the armistice. They have had to be fed from the outside, their distribution has had to be managed for them and they have had food largely on credit from the United States, or starvation on a wholesale scale would have ensued. Europe would have been plunged into an anarchy from which it would not have recovered in ten years."

"In addition to this we have had also to carry the large burden of feeding the allies on credit. Few people realize that during the year ending next July we will have supplied Europe with \$2,750,000,000 worth of food and that whole of this has been supplied by our national government except perhaps \$400,000,000.

"With peace all European states can manage their own transportation and distribution and therefore continuance of the world's food control as it exists today is unnecessary."

## Rock Island Scene 5 Violent Deaths

By Associated Press Leased Wire  
Rock Island, Ill., June 4.—A murder, a mysterious death, a suicide, a fatal automobile accident and a fatal runaway accident was the gist of happenings in Rock Island in the 12 hours between late yesterday afternoon and early hours this morning.

The murder was that of Leo Davenport, negro, who is alleged to have been shot and killed by C. C. Smith, another negro.

Christopher Anderson committed suicide by inhaling gas.

The mysterious death was that of an unknown man whose lifeless body was found on the government bridge.

Joe Leitner, manager of the chief peoples store here was killed early this morning when struck by an automobile while crossing Second avenue.

Ney Wilson was thrown from his wagon and killed when his team ran away.

## CARRIED OUR CHIEF DOWN TALL LADDER

Chief Thomas Coffey of the fire department experienced the sensation of being carried from the top of the city hall, down a ladder on another man's back yesterday afternoon at 4 o'clock by J. C. Carson, of Kansas City, Mo., a former member of the fire department of that place, who carried the chief down the ladder in order to demonstrate to the members of the Dixon department, the modern method of rescue work. A large crowd assembled at the fire station and witnessed some of Mr. Carson's stunts which were very entertaining as well as educational. He left today for Sterling where he gives a demonstration this afternoon, going from there to Clinton, Davenport and Rock Island.

## By Associated Press Leased Wire

Paris, June 4.—The council of four met this afternoon. Experts on territorial questions and reparations met with the council. It is understood that the clauses of the Austrian peace treaty dealing with reparations now have been completed.

## UNCERTAINTY OVER CHANGES

By Associated Press Leased Wire  
Paris, Tuesday, June 3.—(Delayed)—The atmosphere in peace conference circles was full of speculation today as to possible modifications in several clauses of the treaty with Germany, but nothing tangible is expected to develop until the outcome of the joint meetings of allied experts become known. It is expected that some of these meetings will be held tomorrow. At the meeting of the council of four this afternoon President Wilson made another effort to bring about an agreement as to the principles of the reply to the German counter proposals, but the meeting ended without an agreement.

It is understood that Premier Clemenceau maintains a firm attitude against any revision of the treaty.

## U. S. MARINES IN COSTA RICA FOR GUARD SERVICE

Revolt There Creates Serious Situation, Reports Say.

By Associated Press Leased Wire  
San Salvador, Republic of Salvador, June 4.—American marines have been landed at Puntarenas, and Port Limon, Costa Rica, because of the revolution against the government by General Tinoco, according to dispatches printed in newspapers here.

The revolution in Costa Rica has been going on for two months but has been attracting considerable attention in Central American countries for the past four weeks. Forces said to have been recruited from political exiles formed bands along the Nicaraguan frontier near Lake Nicaragua and advanced southward, clashing on several occasions with forces commanded by Joaquin Tinoco, Costa Rican minister of war. The fighting has been restricted almost entirely to the mountainous country near the Nicaraguan border. Puntarenas is a port on the Pacific coast of Costa Rica and is the Pacific terminus of the railroad extending across Costa Rica to Port Limon which is the most important harbor on the Atlantic side of the country.

## Urges Maintenance Employment Offices

By Associated Press Leased Wire  
Washington, June 4.—Insertion in the sundry civil bill of an appropriation of \$4,600,000 for maintenance of the federal employment service during the next fiscal year was urged by Colonel Arthur Woods, assistant to the secretary of war on employment of discharged soldiers, in letters received today by Chairman Warren of the senate appropriations committee and Chairman Good of the house committee on ways and means.

## FOURTH PRESENTS MORE DANGER THIS YEAR THAN USUAL

### State Fire Marshal in Warning Against Carelessness.

Springfield, Ill., June 4.—In response to numerous inquiries as to the attitude of the Division of Fire Prevention concerning the use of fireworks this year, Fire Marshal John G. Gamber has authorized an interview, urging community celebrations of the Fourth of July throughout the state. The interview is as follows:

"Independence Day, 1919, probably will be celebrated with more patriotic fervor than ever before in the history of our country. It will be the occasion not only of rejoicing over liberty's triumph in the World War, but of doing honor to our returned fighting men, most of whom are expected to be home by that time.

"Realizing the tremendous popular enthusiasm which will give vent to itself on that day, and with no idea of discouraging a proper expression of the great patriotic impulse underlying it, I most earnestly appeal to the people of the state of Illinois to keep this enthusiasm within safe and sane channels.

"During the past several years, great strides have been made in the direction of a safe and sane celebration of the Fourth of July, with the result that the toll of dead and maimed, and the number of fires, have steadily decreased.

"To many the temptation to go to extremes will be great this year. The stimulus to celebrate was never greater. The need of restraint is therefore correspondingly great. The lesson of restraint was well learned during the war: let everyone continue to apply it in time of peace.

"In scores of localities throughout the state, plans are already being made for great community observances, with the returned fighting men as the big feature. These events will be marked by parades, band concerts, addresses by noted speakers, programs of great variety and community displays of fireworks.

"I cannot too strongly express my endorsement of such observances and I urge them upon city officials, chambers of commerce and such other organizations as are accustomed to take the initiative in these matters in their respective communities. Certainly no time is more opportune for a community Fourth of July celebration than this when every city, village and town desires to honor all its fighting heroes.

"City and village officials are empowered by statute to regulate, restrain and prohibit the use of fireworks, firecrackers, torpedoes, Roman candles, sky rockets and other pyrotechnic displays. I call upon such officials to exercise these broad powers to bring about such regulation and restraint as is necessary in their respective communities in the interests of public safety.

"It is a misdemeanor in Illinois, punishable by a fine of \$25.00 for anyone to trade, sell or give away any toy pistol so made or constructed that it can be used to shoot blank cartridges. The toy pistol and blank cartridge are the most prolific cause of tetanus, or lockjaw. If any person has knowledge of the violation of this act, it is his duty to report this knowledge promptly to the police or state's attorney.

"I appeal to every resident of Illinois individually, to exercise the utmost carefulness in the use of fireworks.

"Let's keep Fourth of July carelessness under the ban. Let's not revive the casualty lists and needless fires."

## BATTLESHIPS TO BE RELIEVED OF ACTIVE DUTY

### Old Fighting Vessels, Now Obsolete, Will Be Dismantled.

*By Associated Press Leased Wire*  
Washington, June 4.—Twelve dreadnaught battleships will be relieved of active duty with the fleet and eventually broken up for junk or used as targets by more modern vessels under plans now being worked out by the navy department. The ships are of the "mixed battery" type and are not considered to be of any value against latest fighting craft.

Four of the battleships, the historic squadron comprising the Oregon, Indiana, Iowa and Massachusetts, have already been relegated to the scrap heap. The remaining eight, apparently doomed to the same fate, are the Keokuk, Kentucky, Illinois, Alabama, Wisconsin, Maine, Missouri and Ohio.

The twelve vessels, built between 1893 and 1901, represents a total expenditure for hulls and machinery alone, of more than \$30,000,000. When placed out of commission they will release for other duty approximately 10,000 enlisted men and nearly 400 officers.

The ships were used during the war with Germany as training ships or coast defense units.

**May Be Used for Defense**  
It has been suggested that a number of the vessels could be well utilized as coast defense units by sinking them in shoal water at the entrance to the most important harbors, making them virtually forts. It is possible that four of them will be used for this purpose.

With these twelve ships stricken from the navy register the fleet will comprise 40 dreadnaughts and pre-dreadnaughts, 29 of them of the most modern type and 11 of slightly older class but still formidable units, all of them of the "all big gun" type of construction.

In addition to this powerful fleet of 40 battleships there are now authorized and under suspended construction six cruisers planned on scale never before attempted by any navy. They will be 850 feet in length, estimated displacement of 35,000 tons and will mount eight 16-inch guns. The contract speed of these cruisers is 35 knots. Secretary Daniels has recommended that construction be immediately resumed on these ships.

## Electricians Much in Demand in U. S.

Washington, June 4.—A returned soldier whatever his disability and whether or not he has had previous experience will if he is at all interested in the subject of electricity find some job that will be suitable for him, so great is the present demand for electrical men. It is not surprising that courses in electricity, either in construction, maintenance or repair, are popular with disabled soldiers who come to the Federal board for training. There are at present 178 men taking courses in the general subject of electricity, 13 are studying bench work and 61 are preparing to be electrical engineers.

Disabled men can fill many positions in power plants, such as switchboard operators, substation operators, combustion experts, attendants of auxiliary machinery. Clerks, whose duty it is to analyze and record the daily operating charts, and compile them into cost records are being used more and more in electrical plants.

Lawyers have your briefs and abstracts printed at the Evening Telegraph office. We have efficient men who have spent years on this class of work.

## THE CHIROPRACTOR'S OBLIGATION TO THE PUBLIC HEALTH

"Though Physicians gain their living principally through the prevalence of disease, they have ever been active in seeking to control, prevent and eradicate this foe of mankind." (Rupert Blue, Surgeon-General, United States Public Health Service, in June issue "Modern Medicine.")

No branch of the Healing Profession has been more active in this than the Chiropractic Profession. We have always tried to maintain the highest efficiency, improve our methods, keep abreast of every new movement, promote every important activity that would help raise the standard of health, maintain strict obedience to the laws governing contagious and infectious diseases, cooperate in every way with the health authorities, educate the community in the best and safest way, not only to gain but to maintain health, to place community welfare above self-interest, to seek to discover the underlying social and economical causes of the illness of patients.

Chiropractic has made good in all these things, and we are progressing rapidly to better, bigger things. The future will see Chiropractic universally accepted as the best, safest, sanest and quickest way to regain and maintain "Health." Chiropractors are specialists in their work, devoting all their time and study to this one method of healing, using no other methods at all. This assures you of good, experienced, practical work on your own individual case. By using Chiropractic alone, we know whether the work is applicable to your case, or not, and we tell you so. Our work in Dixon is proof of the good that it can do, even in cases that have been considered incurable. No need to try it, as it has been proven thoroughly good and reliable. When you start, you know that you will get results.

## This Machine and One Man Puts Up The Hay

### Farmers Call This Easyway the "One Man Hay Loader"

They tell us one man can make a big full load. This Loader combines the Cylinder and Push Bar actions. The Cylinder gently lifts the hay from swath or windrow. The Push Bar forces it up and far onto the load. Your work is easier, you save on labor and get in better hay.

### Other Added Features

This combined Cylinder and Push Bar Action in the Sandwich Easyway Loader plus the reputation of the Sandwich Machinery for honest quality, puts this Loader above all others. But here are more and extra features, exclusive in the Sandwich Easyway Hay Loader. Adjustable Wagon Hitch, Flexible Tongue, Light Draft, works on even or rough ground, handles Swath or Windrow, does not dig up the ground, durable and lasting, works fine on alfalfa. There are over sixty years of manufacturing skill behind it.

### Now Is the Time

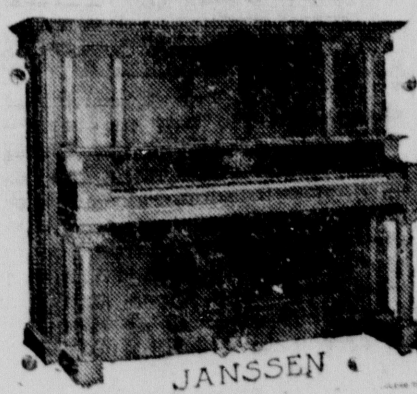

Don't delay. That is our warning. We don't want to disappoint anyone, whether it's a regular customer or some new friend. But we could get only a limited number of these Sandwich Easy Way Loaders.

If you need a new Loader, you'll never be satisfied unless you see this one. We've been in business a long time, but we've never had anything we were prouder to offer to our trade than this Sandwich Easyway Loader.

## Millwork

When in need of Millwork or Interior Trim of any kind come to us.

Interior, unseasoned material for inside finish is expensive at any price. Poorly finished, unseasoned lumber will not take stain, wax or varnish properly and the cracks and checks will be a constant source of expense and annoyance.

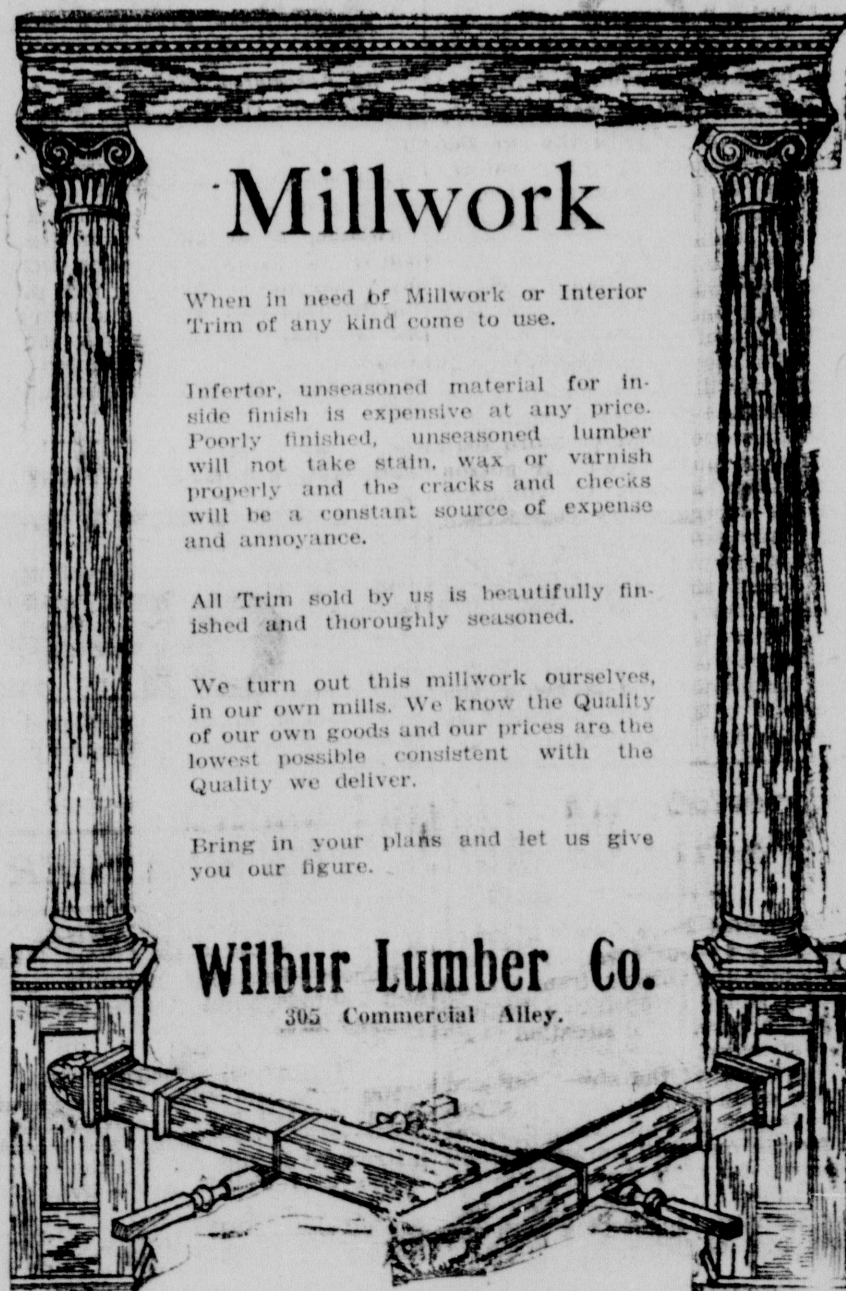

All Trim sold by us is beautifully finished and thoroughly seasoned.

We turn out this millwork ourselves, in our own mills. We know the Quality of our own goods and our prices are the lowest possible consistent with the Quality we deliver.

## THE PROMOTER'S WIFE

By JANE PHELPS.

### NEIL TELLS BARBARA HIS STORY CHAPTER CX.

At Neil's reply a faintness swept over me. "Take his medicine," he had said. What did he mean? Not that he was guilty of all their charges against him? It could not be that! It could not. But even if it were I was his wife. I loved him, and would stand by him. Then inconspicuously there came to my mind the inventory I had prepared, and the thought that we could give up the house quickly. That it might take time to settle such affairs never occurred to me. That we would make restitution at once and end it, was my thought.

"Poor boy," I repeated, smoothing his hair. "Don't feel so badly dear. You have me and Robert, no one can take us from you."

"I—really Bab—will you stand by me through this?" he clung to me now sobbing outright.

"Why of course I will! Didn't I marry you for better or worse? Why should I run when the 'worse' comes? No, dear heart, I love you. If you have made mistakes I still love you. Even if you have done—wrong, I love you, and always shall. Now try to get some sleep. But first let me telephone Mr. Frederick and ask him to come up here the first thing in the morning. If anyone in the world can and will help us it is he. Then before he comes you must tell me everything about your affairs—your trouble. I can't try to do anything in the dark. Now go to bed, dear."

Without a word he did as I had asked. And soon fell into a restless sleep. But I lay awake all the long night thru, trying to pierce the future, planning to make him happy, and to help him rehabilitate himself, socially and financially. I was not foolish enough to want him to lay down and accept what seemed to be the inevitable. Even had I been I knew his ambitious spirit too well to think for a moment he would be satisfied to give up the struggle. If only I might help direct him into other, and more elevating channels. He was still so young. Surely his life need not be a failure because of this—mistake.

When he awoke he looked unrested, unfreshened. His sleep had done him little good. After breakfast we went into the library, taking the Express-Tribune with us. There on the first page was our story—part of it, softened perhaps by the kind reporter, but starkly hideous just the same. It even spoke of arrest,—as a possibility.

"Now tell me," I took the paper from him and laid it on the table. "Please tell me all, Neil. It will make no difference in my feeling for you, and perhaps I can help if I 'know.'"

It was a long and pitiful story to which I listened that morning. A story of ambition so inordinate that it caused the loss of all perspective—even as regarded right and wrong. There was one ray of hope in the story and that was the faith Neil had pinned upon the men who had made him their agent—Eastern Agents in disposing of mines when no mines existed, of shares in oil companies that

had no oil wells. That he had accepted their word without investigation, and had taken over their claims without looking them up in any way, seemed to me would show faith in his own projects. Little did I realize how very little sympathy men had for anyone who caused them financial loss.

I tried to cheer him up as best I could, not letting him see how shocked I had been at his story. How hurt in my belief in him. He was very despondent, and all I said seemed to have no effect. He talked of disgracing me and Robert, of taking us back into poverty worse than we ever had known. Of the loss of all he had worked so hard to obtain. In all his regret it was for us, not for himself.

"You are so young Neil, you will show them you can make good even after all this. You can make money again. Reinvestate yourself in the world. I know it, Neil, and you must know it too. You must not allow this to crush you. A way out will be found." Even as I said it my eyes rested upon the word "arrest" in the paper. Suppose they sent him to jail!

"Mr. Frederick, ma'am," the maid announced at that moment.

### A FRIEND IN NEED IS APPRECIATED CHAPTER CXI

I don't think I ever was so glad to see anyone as I was to see Mr. Frederick that morning. Yet with the gladness was a guilty feeling also. I knew this straightforward, blunt man cared for me. And I was depending upon him to help Neil, the man I loved. That he was my husband was the redeeming feature of course, yet I couldn't help but wonder if Frederick would feel that I was using him because I knew of his admiration for me, and if he would resent it?

"I am glad you sent for me" were his first words as he shook hands with Neil after greeting me.

"I didn't," Neil returned in a hopeless voice. "It was Bab's doing."

"So long as I am here what difference does it make who sent for me. Now let us get down to business. I see you know the papers are busy. I also have been busy, and so has Mrs. Orton."

"Mrs. Orton!" I exclaimed, wondering what she had to do with it now.

"Yes, she's a brick. Give me a keen-witted woman when things are snarled. They are twice as quick as a man in finding a way out."

Had she found a way out? I prayed that she had.

It seemed that Frederick knew all that Neil had told me. Of his careless acceptance of claims of which he knew nothing, and upon which he had prepared glittering prospectus and sent them out to the credulous and reaping immense returns because of promises he made, promises which he neither knew—or seemed to care—if he could fulfill.

"Scott will take all he has put up with you—and interest at 6 per cent. I had to put the screws on. But I happened to know something of his past life which couldn't stand the sunlight.

I hated to use it. He's got a nice wife and kids. But there was no other way. That settles Scott."

"I never can pay him," Neil broke in. But Frederick paid no attention.

"Mrs. Orton has suggested that you immediately put an advertisement in the papers that all who have invested with you will be treated the same way. Money back and interest. It is your only chance. They can't jail you unless someone prosecutes you. It is hard to crawl, but your youth and your ambition will have to be pleaded, and perhaps we can get them all satisfied."

"But man! I couldn't repay one tenth of what I—have had from them."

"No, I am well aware of that. But you can do what you can. Your friends will do the rest—lend you the money. I don't know what pleas Blanche Orton used but Tealrie and Connor will wait. As they are the only men who have advanced large amounts—beside Scott whom I will manage. I think you may be able to care for the rest. But—wait!" as Neil straightened up, a gleam of hope upon his white face.

"There's a string to the bow, as there always is. 'You have got to give me your word to quit the business and to go straight.'"

"God man! don't you know how I hate it! But I couldn't get out once I was in. So I kept getting in further, deeper and deeper. And I can't even plead as so many do that I did it to make money for my wife and child. I didn't! I did it for myself to satisfy my inordinate ambition to be called the youngest great financier in the country. Oh, I have no excuse, none! As for giving you my word I'll quit. I have been made to quit, haven't I? As for going straight I'd be a brute if I wouldn't after the way Bab has talked and she knows just how bad it once was in. So I kept getting in further, deeper and deeper. And I can't even plead as so many do that I did it to make money for my wife and child. I didn't! I did it for myself to satisfy my inordinate ambition to be called the youngest great financier in the country. Oh, I have no excuse, none! As for giving you my word I'll quit. I have been made to quit, haven't I? As for going straight I'd be a brute if I wouldn't after the way Bab has talked and she knows just how bad it once was in. So I kept getting in further, deeper and deeper. And I can't even plead as so many do that I did it to make money for my wife and child. I didn't! ## WAR SURGERY.

The medical and surgical history of  
the war was marvelous, of course. But  
according to Dr. Joseph Blake, who had  
charge of one of the base hospitals dur-  
ing the entire war, the most amazing  
thing that surgeons did was to open the  
chest where necessary and perform op-  
erations on the heart and lungs.

This was done successfully, not once  
but many times, and marked a mile-  
stone in surgery, for such operations  
had been extraordinarily difficult and  
almost invariably fatal. There are  
many men comparatively sound today  
whose lungs have been under the sur-  
geon's knife, for the removal of shrap-  
nel and the sewing up of lacerations.

Another advance made was in the  
treatment of fractures, which were not  
placed in casts and held rigid, but were  
suspended in specially devised appar-  
atus, permitting the patient to move,  
keeping joints limber and doing away  
with stiffness which often used to follow  
fracture, as well as obviating any dan-  
ger of withering or shortening the fr-  
actured member.

It must have taken courage for the  
surgeon to pioneer, as well as for the  
soldier to bear his pain, but out of their  
suffering and heroism has come know-  
ledge which will benefit mankind for all  
time to come.

## WORTHLESS STOCKS FOR W. S. S.

The treasury department again issues  
emphatic warning against fraudulent  
peddlers who are offering worthless  
stocks in exchange for War Savings  
stamps.

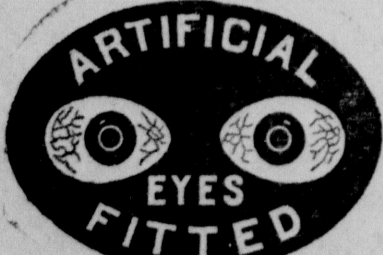

Legislation now awaiting action by  
congress is to put such restrictions up-  
on stock and bond dealers as shall make  
it more difficult for the crooks whose  
name is legion to operate.

One of these measures will make it il-  
legal to send through the mails adver-  
tisement of securities which have been  
registered with and approved by the  
government. This is an especially ne-  
cessary bit of lawmaking, for the re-  
sumption of advertising by mail on a  
tremendous scale, and the credulous peo-  
ple who still believe that there is some  
safe way to get something for nothing  
will be attacked not only by the fraud-  
ulent agent in person but through the  
mails as well.

Since there are as yet no unified laws  
safeguarding the credulous from the  
tricksters, any one who hears of at-  
tempts to induce people to part with  
government securities for high-priced  
fancy stocks should secure the name of  
the salesman and of his proffered  
goods, reporting both to the federal  
trade commission at Washington for in-  
vestigation.

Trotzky wires the Hungarians to  
keep up their warfare until "capitalism  
is ended." But every Hungarian can-  
not, like Leon, loot the state treasury  
and send the stuff out of the country  
until the rainy day when the war goes  
against him.

Some one calls Mayor Ole Hanson of  
Seattle a journeyman egotist. Ole can-  
not be blamed if he does think Ole bane  
first-class feller. He went out and  
proved it.

OVERLAND PLANT  
CLOSED BECAUSE  
OF GREAT RIOTS

(Continued from Page 1.)

general manager of the company, au-  
thorized the announcement that no at-  
tempt would be made to operate the  
plant, pending word from Governor  
Cox regarding an appeal from Mayor  
Schreiber for troops to handle the sit-  
uation.

The dead men, it is said, were not in-  
volved in the labor dispute and were  
never employed at the Overland plant.  
They were in the crowd which conge-  
aled about a fire station when dis-  
charged soldiers guarding the plant ar-  
rived in response to a riot call.

Further Outbreaks Expected  
Feeling in the neighborhood where  
the deaths occurred is running high  
and police authorities are apprehensive  
of further outbreaks today aimed at  
the former soldiers doing emergency  
police duty. These emergency policemen  
are armed with automatic pistols and  
rifles. They still wear the uniform of  
the army and are operating under the  
direction of Colonel L. W. Howard,  
who receives his instructions from  
Mayor Schreiber.

The labor situation at the automo-  
bile plant developed into a pitched bat-  
tle at the gates of the factory last  
night as the day force was leaving.

5000 in Mob  
A crowd estimated at 5000 idle work-  
ers attacked the loyal employees with a  
shower of bricks, stones, clubs and  
other missiles.

The emergency police charged them,  
firing more than a hundred shots over  
the heads of the rioters. Eleven per-  
sons were injured in this clash, two  
probably fatally.

After this disturbance had been  
quelled, one of the discharged soldier  
guards was seen near the automobile  
plant. A crowd gathered about him,  
hoofed and threatened him and he took  
refuge in a fire engine house.

A summons for help was sent to the  
commanding officer of the emergency  
police force and two automobile trucks  
filled with men in uniform responded.  
These men fired a volley over the heads  
of the crowd. When this failed to dis-  
perse the assemblage, the order was  
given to shoot low, killing two men and  
wounded six others.

## CASUALTY REPORT.

Washington, D. C., June 4.—The fol-  
lowing casualties are reported by the  
commanding general of American Ex-  
peditionary Forces:

Killed in action—4.  
Died of disease—11.  
Wounded severely—65.  
Wounded (degree undetermined)—156.  
Wounded slightly—17.  
Total—253.

Mrs. M. Spielman and son, Robert,  
left this morning for Washington, D. C.,  
where they will visit with Miss Ona  
Spielman, who is in the government em-  
ploy. Miss Marion Spielman accompa-  
nied them to Chicago, where she will  
visit with friends and relatives for sev-  
eral days.

Mr. and Mrs. Will Thompson of  
Chenoa, Ill., are visiting in Dixon  
the Richard W. Thompson home.

AN INSULT TO GOD  
DECLARED BANKER

safely assume that a solution will be  
found for the dark things that always  
seem to be impending.

A Time of Changes  
Changes are going on in the bank-  
ing world just as in every thing else,  
the speaker said, and the time of the  
one-man bank is gone. Harriman and  
Hill were great railroad men, but when  
they retired their railroads went on  
even better under systematized organiza-  
tion than under their personal one-man  
direction. In New York City, Mr. Allen  
said, not one bank president is holding  
his job because of his wealth; for as a  
matter of fact all of them are compar-  
atively poor men. They are there be-  
cause of their ability and their faculty  
of thinking right.

Today bankers must be more than  
men who handle currency and keep  
sets of books. They must be broader  
and better educated in the affairs of  
the world, the nation and their own  
communities. They must know the fun-  
damentals of political economy; and  
with proper knowledge and the proper  
dissemination of that knowledge they  
can combat successfully Bolshevism, or  
any other "ism" that threatens the  
land. Mr. Allen paid a tribute to the  
ability of women, who are becoming  
more and more prominent and influen-  
tial in the business world.

Army Chaplain Spoke  
Lt. Chaplain Newark of the 365th  
Inf., a New York regiment, was next  
called upon for remarks by Chairman  
A. P. Arrington of this city, and he  
kept his hearers intensely interested  
for nearly an hour with a recital of the  
experiences of the boys in the Argonne.  
The chaplain spoke eloquently of the  
U. S. navy, of the care the government  
took of its fighting men and of the  
great uncomplaining courage of the  
boys themselves.

During the afternoon's program Dr.  
and Mrs. Willard Thompson sang a  
very pleasing duet and Mrs. Thompson  
a solo, both of which numbers were en-  
cored by the enthusiastic audience.  
Mrs. F. J. Rosbrook accompanied both  
numbers.

The latter part of the session was de-  
voted to round-table discussion of mat-  
ters which every banker encounters,  
and following the discussions the visi-  
tors were taken about the city and to  
the Dixon Country club grounds in au-  
tomobiles furnished by the Dixon bank-  
ers. The session was one of entire in-  
terest to the 200 financiers who attend-  
ed.

## PEACE SUMMARY

By Associated Press Leased Wire

There is reason to believe, according  
to advices from Paris, that the council  
of four will reach a decision by Thurs-  
day as to the reply that will be made  
to the German counter proposals to  
the terms of peace. Allied experts are  
at work on the reply and meetings are  
being held in Paris today for the pur-  
pose of drafting memoranda to be sub-

mitted to the council of four. It is  
probable that this work is well under  
way.

Premier Clemenceau is understood to  
maintain firmly that there can be no  
important changes in the clauses of the  
treaty to which the Germans have en-  
tered their strongest objections. There  
are indications, however, of a strong  
undercurrent of sentiment to meet the  
German offer of a definite sum of 100,-  
000,000,000 marks as indemnity instead  
of the indeterminate sum that might be  
demanded under the terms as presented.  
It also seems possible that the clauses  
of the pact relating to Silesia may be  
modified so that Germany would be able  
to receive supplies of grain, coal and  
other commodities in spite of the trans-  
fer to Poland of sovereignty of that re-  
gion.

That the Germans have not said their  
last word in objecting to phrases of the  
treaty is indicated by a memorandum  
which has been drafted at Versailles by  
German experts, who seek to refute al-  
lled charges as to the guilt of Germany  
for the war. This memorandum will,

## ALLEN D. ALBERT TELLS CITY HOW TO GROW BIGGER

(Continued from page 1.)

and how it usually sets apart from the majority of citizens of a city like Dixon. In community co-operation, Dr. Albert said, the "city" usually makes up 7 per cent of the population, or the working force, while the other 93 per cent is too apt to be overlooked.

He cited examples to show that to be successful in community uplift the 93 per cent must dominate in representation on the community council just as it dominates in population.

### Government Ask Co-operation.

The war has brought on a great spirit of co-operation that is too likely to be discarded under peace times. The nation is fast returning to pre-war conditions in community spirit. Business interests are ceasing to cooperate, religion is getting back to old prejudices, and cities are not cooperating as they did before November, 1918. A lack of community spirit is threatened since the war is over.

To remedy this condition the United States government asks teamwork and the organization of community councils. It asks that instead of building vast new organizations, the old ones be utilized by joining in a spirit of co-operation. To get the old organizations into step is the purpose of the community council movement.

### "Only One In Step."

Many institutions of the modern city believe they are the only ones in step. The Chamber of Commerce says it offers the opportunity for all work of advancement. The federation of churches and other organizations believe they offer the opportunity for co-operation by groups.

These institutions as well as 100 more, many of them unknown, should send delegates to the community council. Dr. Albert said it was hard for many to believe that there are 100 organizations which could become affiliated with a community council. We all know, he said, that there are more than a dozen or more, most of them most prominently known, but where do the remainder come from? He answered by saying that they come from the 93 per cent, in so many cases ignored in community life.

### Invite All Classes.

He then suggested that all lodges be invited, that every branch of labor be represented and that the day laboring man, mechanic, carpenter, mason, tinner and members of all trades be invited to take counsel together for the good of Dixon. They will do as much good for the city as the representative from the Chamber of Commerce, Woman's club, church federation or any other organization in the 7 per cent class. Women, the wives of the workers, the office assistants, and the little neighborhood clubs, should have as much to say as any other class.

### Interest the 93 Per Cent.

There is a great need to draw the 93 per cent into any movement for betterment of Dixon. Don't you fail to recognize that the 93 per cent dominate the United States? he said. If they do not dominate through good, they do through bad. Class consciousness should be "cut" for the sake of a better community.

Friendliness and neighborliness should be common attributes in community life. There is not a person who does not know something that is of benefit to his neighbor, if only an exchange of views can be arranged. This can be done if class prejudice is eliminated. All devotion to high ideals is not confined to one class.

Dr. Albert then described some of the things that community council could do for Dixon.

### Know More About Health.

First he recommended that Dixon know more about health. He suggested that we become familiar with our death rate. But few know what percentage of our population dies. We all believe that Dixon is the most healthy city in the country. Every city believes it is the healthiest. He said he had learned that only 50 per cent of the houses in Dixon were connected with sewer. Dixon is thoroughly prepared for an epidemic of typhoid which will be a horror. The fact that Dixon does not have more sewers is not that the people do not want them, but that they do not realize the need. They are thinking more of the money than health.

### Full Time Health Officer.

Secondly, he said, Dixon should have a full time health officer.

### More School Playground.

Thirdly, more playground at each of the schools is needed. Each school should have two acres of playground, but it is doubtful whether the combined playgrounds of the seven schools contain two acres.

Play should be organized for the sake of the boys. Their time outside of work and school hours should be filled. No harm enters a boy when he is busy at work. His play time is the time when harm comes. Make his play time interesting and wholesome and harm is eliminated.

### Milk Inspection.

Fourthly, the community should solve the milk inspection problem. Careful watch should be kept over the milk supply from its source to the table. Milk inspection should be had for two reasons. First, because we have the right to get what we pay for, and second, if we do not get it the toll will be levied on the babies, invaded and aged.

### Great Play Movement.

Lastly, Mr. Albert advocated a great play movement for all the people. Some of us think we play when we play bridge, but bridge is not play, it is an intellectual and nervous strain. Pool and billiards, enjoyed by many men, is not play and would do us no good if we depended for health on the amount of chalk dust we breathe.

Play, he described as wholesome physical exercise with the mind in the proper condition. Play for grownups is just as important as that for children. He advocated a great public playground, where children, under the proper leadership, could congregate to have their games. Elaborate playgrounds equipment is useless without leadership.

### Sectional Play Leaders.

In connection with the leadership problem, he said that every section of the city should have its play leaders, none of greater distance to the homes of children than eight blocks.

He cited as a good example of play, the army life. Our boys have been used to this sort of thing in their army service and will expect it at home. Should it be not available they will soon

seek new fields where the community spirit is in the right direction.

In closing his discourse on play he recommended a "romper" day when little folks, with their parents, would meet to play all sorts of games.

The address was preceded by a concert by the Dixon Military band, which attracted a large number of people, many of whom remained to hear Dr. Albert's interesting message.

activities, already has caused persons known to be radicals of the dangerous type to be put under surveillance by agents of the department of justice in practically every city the reds are known to frequent.

### One Man in Washington.

There were no developments overnight to change the views of the police and special agents here that the explosion of the bomb at Mr. Palmer's home, which wrecked the front of that residence, badly damaged those adjoining and killed the perpetrator was the work of one man. This man, an Italian, the police say arrived here from Philadelphia a little more than half an hour before the explosion. That his coming was a part of the plot in which the outrage here was only one of many planned for that night, the police have no doubt.

Public buildings and homes of officials continued to be under extra guard as a precautionary measure.

### SIX ARRESTED IN CHICAGO

By Associated Press Leased Wire Chicago, June 4.—Half a dozen men are in custody today as bomb suspects following a night of activity on the part of federal agents and city detectives. Several raids were made on places on the west and south side reputed to be places for gathering of radicals.

### RUSSIAN ANARCHISTS DIRECT

Pittsburgh, Pa., June 4.—Evidence that anarchists, responsible for bomb explosions at the home of Judge W. H. S. Thompson, of the United States district court, and W. W. Sboray, chief inpector of the bureau of immigration Monday night were operating under orders from Russian radicals' headquarters, 133 east Fifteenth street, was in the hands of the police here today.

According to an announcement this morning, by Supt. R. J. Alderdice, of the bureau of police, John Johnson, president of the local I. W. W. organization, who was arrested yesterday after a fight with detectives in a downtown office building, came to Pittsburgh from New York two weeks ago at the instance of "No. 1001," Wm. Haywood, president of the National I. W. W., according to Mr. Alderdice, was the pass number 1001.

### Johnson Held in Jail

Johnson, who, the police say, was the directing genius of the bomb plot in this city, was held in jail today with a score of other alleged anarchists who were arrested yesterday and last night. Bail was refused in each case. In a partial confession, made to the police late yesterday, Johnson is said to have named a Cleveland man as the maker of the bombs exploded here. This man, whose name the police withheld, also is said to have operated under orders of the radical headquarters in New York and is believed to have gone to Chicago after the explosions here. A search for him was being made in that city today.

Among the important suspects arrested last night was Mike Bielska, also known as Zeleske, said by the police to be secretary of the Russian soviet organization in Pittsburgh and a delegate from the Petrograd council of workmen and peasants, sent to this country to spread bolshevik propaganda. A large quantity of I. W. W. and anarchist literature was found on the suspects.

### PATERSON WARNS REDS

### Arrive During Night.

The twelve special trains bearing detachments of the last contingent of the 33rd division will arrive in Chicago during the night. It is expected the first train will arrive at about 10:15 and the last at about 6 o'clock tomorrow morning. The men will not be allowed to leave their cars until 8 o'clock tomorrow morning, when they will be given an hour before assembling in Grant Park to meet relatives.

### Biggest Parade Tomorrow.

The men who will march in Chicago tomorrow will be "Illinois Own" artillery and the parade, which will start at 11 o'clock, will be the biggest that has been given any of the returning soldiers.

The strength of the detachment, the last of the 33rd to reach home, will be as follows: Fifty-eighth Artillery Brigade headquarters, four officers and forty men.

One Hundred and Twenty-second Field Artillery, thirty-four officers and 1,234 men.

One Hundred and Twenty-third Field Artillery, forty-four officers and 1,237 men.

One Hundred and Twenty-fourth Artillery, forty-four officers and 806 men.

One Hundred and Eighty Engineers, twenty-five officers and 1,389 men.

One Hundred and Eighth Field Signal Battalion, seven officers and 232 men.

One Hundred and Eighth Sanitary Train, thirty-three officers and 694 men.

### Where Men Will Eat.

The hotels at which the men will eat announced by the Governor's committee yesterday are:

Congress Hotel, Fifty-eighth Artillery Brigade Headquarters, 122 Field Artillery and 108th Sanitary Train.

LaSalle Hotel, 123d Field Artillery.

Hotel Sherman, 124th Field Artillery.

Morrison Hotel, 108th Engineers.

Stratford Hotel, 108th Field Signal Battalion.

### May Be Home Saturday.

Relatives of most of the Dixon boys are planning to go to Chicago this evening or early in the morning to meet the boys during the reception at Grant Park and to see the parade, and they will then come home to get ready to welcome the boys Saturday afternoon or Sunday.

The Company G boys will arrive in Camp Grant late tomorrow afternoon or early in the evening. If they are fortunate their discharges may be filed tomorrow and they will be able to leave camp Saturday morning.

Captain Lloyd Lewis, formerly of Co. G, now commander of the 123rd Headquarters Company, will keep Chairman Miller of the Dixon committee advised as to progress in discharge routine and a system of signals by whistle or bell will be arranged whereby everyone in Dixon can be notified when the company leaves Camp Grant in automobiles for home.

## CHRISTIANS LOSE TO PRESBY TEAM BY 16 TO 5 COUNT

The Presbyterians won their first victory of the season when they defeated the Christians in the scheduled game in the twilight baseball league last evening by the score of 16 to 5.

The game was a snappy one throughout, the Presbyterian getting the lead in the first inning and holding it throughout. Green pitched for the Christians, playing a good game, but did not get as good team work as in former games.

Tidball, on the mound for the Presbyterians, was given excellent support throughout. The Presbyterians hit freely and safely in all except two of three innings. Frank Edwards, third baseman for the Presbyterians, got a home run. Davis for the Presbyterians and Rice for the Christians played stellar games in left field.

Oliver Gehant, banker of West Brooklyn, and F. W. Meyer, also of West Brooklyn, attended the Bankers' convention here yesterday.

S. A. Durkes, of Franklin Grove, was in Dixon Tuesday.

### FOR SAILOR GUEST—

A lawn party was given Monday evening at the home of Mr. and Mrs. Guy Shaver in honor of their nephew, John F. Mahan, of California, who is here visiting them and his grandmother, Mrs. Elizabeth James. He is a seaman in the U. S. navy and is here on a furlough. He served on a transport and has been across four times. He expects to leave on the fifth trip across next week. About twenty-five guests were present at the party. Japanese lanterns lighted the lawn and two large flags were a part of the decorations. The refreshment tables were set on the lawn. Kewpies, decorated with red ribbon, were the table centerpieces. Piano numbers were furnished during the evening by Miss Bessie Denny and Wm. Werley and Frank Gorham. Miss Denny and Mr. Gorham also gave several vocal selections. Mr. Mahan's relatives presented him with a Hamilton watch with his name and the year, "1919," engraved on the back.

### HELD ANNUAL PICNIC—

The Peoria Avenue Reading club members, on Monday afternoon held their annual picnic at Nancassadde lodge, Assembly park, closing the club year. The sessions will not be resumed until fall. A picnic luncheon was served, followed by the regular business session.

Officers for the year were elected as follows:

President—Mrs. Fred K. Tribou. Vice President—Mrs. Charles Todd. Secretary-treasurer—Mrs. Geo. Steel. The club now in its thirty-second year, is the oldest club in the city. An interesting feature of the afternoon was the reading of the history of the club. Mrs. C. B. Morrison gave that of the first ten years; Mrs. C. G. Smith that of the second ten, and Mrs. Tribou told the story of the remaining period of twelve years.

### AUXILIARY SUPPER—

The Woman's Auxiliary of the Presbyterian church held a scramble supper last evening at the home of Mr. and Mrs. James Ballou, members, their husbands and friends attending. The very pretty lawn of the Ballou home, with its many flowers, made a very attractive setting for the tables, which were adorned with bouquets of garden flowers. A most enjoyable supper was served. Mesdames Ballou, Trowbridge, Keller, Livingston, Rorick and F. Stephan were the hostesses and committee on serving. The members were glad to welcome a former member, Mrs. Edward McCleary, of Fresno, Cal., nee Miss Harrie Barlow. Mrs. Kirk, a niece of Mrs. Ballou, was also an out-of-town guest.

### WAS INTERESTING TALK—

Those who heard William L. Tomlins, of Chicago, speak at the Y. M. C. A. Monday evening, were greatly delighted with his talk and the many helpful suggestions he gave in reference to the musical training of children. Mr. Tomlins, a man of over twenty years, is the director of the Children's Song Festival, the annual May festival given in Orchestra hall, Chicago, which a number of Dixon people make a point of hearing each year. He was the director of the immense chorus of five thousand voices at the World's Fair in Chicago in 1893. Twenty-eight months were used in the training of this chorus. Mr. Tomlins came to Dixon to encourage the continuance of community singing among the children, especially.

### U AND I CLUB MET—

The last meeting of the club year before the annual picnic was held by the U and I club members last evening at the home of Mrs. Lester Paine. Unfinished business of the year was completed and plans for the picnic made. Assembly Park will be the scene of the picnic to be held on June 24th. Fancy work and chat engaged the attention of the guests during the remainder of the evening. Miss Josephine Whitish was a guest. The serving of a dainty two-course tray luncheon closed the evening.

## New Steamship Lines to S. A. Contemplated

By Associated Press Leased Wire Washington, June 4.—Edward N. Hurley, chairman of the shipping board, announced at the morning session of the second pan-American commercial conference, which began the third day of its convention here today at the pan-American union, that new steamship lines soon would be put into operation to both coasts of Central and South America. He declared the new lines would engage in passenger and commercial business and that the complaints so frequently heard of lack of transportation between North, Central and South America would soon be a thing of the past.

Charles Lett, of Sublette, left Dixon this morning for Chicago where he will view the parade of the 123rd field artillery, of which his son is a member, tomorrow. Mrs. Lett is in Chicago and will be joined by her husband.

## Strike of Chicago Bakers Called Off

Chicago, June 4.—The strike of the bakers has been officially called off. It was announced today and after the 1800—some of whom had been returned to work—others had been increased of \$2 and a 10-cent hour increase for work done after 6 p. m. and 5 a. m. About 1500 bakers and several hundred others returned to work with the bakers.

You will find some of the most graceful English written in tire advertisements—which is unfortunate when the user finds out that the English is better than the tire.

And yet there are cases where the tire is as good as its advertising—and sometimes better.

We are writing no panegyrics about Kelly-Springfield Tires; it isn't necessary. Most of them are sold by the enthusiastic recommendation of satisfied users. That kind of advertising can't be bought—and it can't be written.

## TO KEEP FOODS COLD ALONE IS NOT SUFFICIENT

Foods may be kept cold and still be ruined. That causes them to spoil rapidly—they become tainted.

Cold, pure, dry air that is constantly and automatically circulating through your foods, over the ice (which purifies the air and draws off food odors) will keep your foods fresh, pure and wholesome.

That is the kind of circulation you get in the Automatic, the refrigerator we would like to have you inspect at the store here. Come in this evening.

## FRANKLIN GROVE AFFAIRS

(By J. C. COOK.)

### Memorial Day in Franklin Grove.

Memorial day dawned bright and beautiful. Early in the forenoon old Sol was warming things up and by noon the mercury had reached a point which indicated that it might go "over the top" before the day was over. During the forenoon there was very little stir around town, everybody appeared to be at home. The stores were open for a few hours but there appeared to be but little trading. At one thirty p. m. according to the program, there was a meeting at the Presbyterian church of all those who were to take part in the parade, including members of the G. A. R. and returned soldiers and sailors. A fire and drum corps and the Franklin Grove band furnished the marching music. After impressive services at the cemetery in charge of the George W. Hewett G. A. R. post, the crowd gathered at the auditorium at the camp grounds and were entertained by music by the band and the singing of patriotic songs by a double quartette and a most excellent address by Rev. E. C. Lumsden of Dixon, who paid a most glowing tribute to flag and country, to the American armies, soldiers and sailors and heroes of every war that has come to this country. In a brief outline he traced the wonderful growth and development of the greatest, grandest country of earth and made plain the fact that God's hand could be plainly seen in all its glorious history. He did not forget the wonderful characters in the early dawn of the nation's birth, the grand, noble men and women who had played their parts, down through the long Indian wars, the Revolution, the war of 1812, the Mexican war, the Spanish-American war to the last eventful struggle when the allied nations of Europe were dependent upon the American armies.

Among all the Memorial days that have come and gone in Franklin Grove, each bearing its sacred memories, there has probably never been one more impressive than the one just passed. It was a quiet assembly of people who had come together deeply impressed with the spirit of the occasion. Hearts were filled with sympathy and reverence and deeper feelings than could be expressed in words or song. Some of the boys who had marched away with a laugh and a song, waving goodbye in a word of cheer will never come back. They are sleeping today beneath some silent mound in far away France, and stars of blue have turned to gold. Some who have returned carry the empty sleeve. One of the few surviving members of the G. A. R. post, Mr. Morvan, who had formerly always marched with the old veterans, was home very sick and not expected to recover. This left only a few members of the old guard—remnants of the fading ranks, whose former comrades have one by one marched to an everlasting bivouac. The cemetery grounds never looked more beautiful, every resting place and monument was twined with wreaths—a silent city, sleeping beneath a wilderness of flowers.

### Remodeling.

The old Free Methodist church which has stood unoccupied for the past several years has finally succumbed to the decree of changing years and as a church has passed out of existence. Its pulpit and pews have been occupied for the last time and are dismantled and gone.

The late Sol Sunday, during his time, was devoted to religious interests and for many years was a foremost member of this church. It was through his enterprise and the liberal use of his money that the Free Methodist church here was built, and only through his efforts and support that the church was maintained.

ed as the society was never large and the burden of its affairs devolved almost entirely upon Mr. Sunday. After his death the church was purchased by Mr. Andrew Sunday, who is now having it made over into a comfortable dwelling. A good basement extends under the entire building. In the arrangement of the ground floor there will be seven good sized rooms besides a bath room. The upper floor will be divided into several good sized rooms. A commodious porch will extend along the south front. The building when completed will be a cozy desirable residence with modern conveniences. The entire work of reconstruction is in charge of George Anderson of Dixon, who has just completed the remodeling of the Andrew Sunday home which is also complete with every modern and comfortable convenience.

### Good Roads.

China township is favored in having a road supervisor who is one of the most thorough road builders in the country. Ever since Horace Dysart has had the office and in charge of the work he has demonstrated the most thorough efficiency in road building. He has not only given it the closest personal attention and supervision but has shown excellent judgment in operation and construction. At the present time work is being done on a portion of the Amboy road between Franklin Grove and Amboy, beginning at the bridge west of town and extending south two and a half miles. Half a mile of this road is now about completed. The day is not far distant when states and counties, and towns will be knit together in a system of hard roads. The Lincoln Highway, stretching from ocean to ocean will be the beginning; there will be other highways which will radiate north, south, east and west in all directions from this great thoroughfare. Eventually they will be parts of one great whole and along these arteries will pulsate the life blood of the nation, carrying the food of the farms, the products of the factories, the shops, the gardens of literature, the arts and sciences; of progress, and invention and inspiration, to every part alike. China township, with a continuation of its present efficiency, will do its part in bringing about these conditions.

### COMMEMORATION EXERCISES

The Baccalaureate services held at the M. E. church Sunday evening were very largely attended from town and country. Long before the opening services, automobiles commenced to line the church block and early comers were much in evidence. The Rev. Mansard in his usual capable manner,

delighted the class members and the entire audience with inspiring thoughts and sentiments appropriate to the occasion. The graduates this year are Misses Eva Feldkirchner, Elva Sunday, Erna Read, Mary Ella Fegely, Gladys Meyers, Caroline Stultz, Messrs. Wilber Mong, George Miller, Don Sunday, Earl Brown, Ralph Mong, Walter Brammer, Elwood Bates. The class motto: "The Elevator is not running take the stairs." Class flower: American Beauty.

### SENIOR PLAY

The Senior play given by the F. G. H. S. at Lincoln hall Monday evening, it is claimed proved a fine success making such a decided hit with the packed audience that by request it will be repeated Saturday night. The cast is as follows:

### WONDERFUL MUSIC

I wish to call to the attention of the public that I have installed at my place of business, the Brunswick Billiard Parlor, corner Peoria and W. First St., Dixon, Ill., a Violano-Virtuoso. This instrument is designated by the U. S. government as one of the eight greatest inventions of today. It is a combination of violin and piano and is entirely electrically operated and renders the most beautiful and sweetest music this ear ever heard.

## Organized Labor in Favor of Light Wines

By Associated Press Leased Wire

Washington, June 4.—Modification of the war-time prohibition law so the working man may have light wines and beer was urged today by representatives of organized labor at the first of the hearings by the house judiciary committee upon liquor measures.

Edgar Wallace, representing the United Mine Workers, and describing himself as a man who had worked 35 years underground said:

"The best majority of the men in my organization enjoy a drink," he said, "and it does them good."

Officers of the anti-saloon league said they would file briefs and ask to be heard later.

## The Whole Secret of A Better Tire

Simply a Matter of the Makers Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the high-est standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

## SOLDIERS' LETTERS

FROM JAKE SNYDER.

Some letters written by Jacob Snyder to his parents, Mr. and Mrs. Benj. Snyder:

Ulmen, Germany, May 6, 1919.

Hello, Mother and Dad:

Here is a good one that is hard to beat: I got a new pair of socks the other day and see what I found in them. (Enclosed was a guarantee of hose, manufactured by a company of which Mr. Snyder's uncle is manager). Now can you beat that? Send this tag and tell Uncle Jake that I am wearing his socks and can guarantee them and if he wants a salesman that has real experience with socks, to call on me. I have told everyone in the outfit that the socks that they are wearing was made by my uncle.

Just came back from Ahreweil. Went up yesterday by the way of Coblenz. It is seventy-five that way, twenty-five along the Moselle, and about the same distance along the Rhine. Surely is wonderful this time of the year—everything in blossom.

See by the paper that they expect to have all the troops home by September. That sounds good, but will they? Much depends on peace but Wilson is in favor of sending us all home. Guess he will be glad to get back himself; can't blame him much.

I am sending you the Skirmisher. It is put out by the Fourth division and is good. Save them for me because they will be good reading when I get back; also am sending one to Harry Hogan. Got a long letter from Jim Sterling. When the major got back I am going to try to get a pass and go down to see him. Also got a letter from Soddy Lievan. He is in France with the seventh division. They never did get anywhere.

So Campbell's have a boy. And he is commissioner. He ought to make a good one.

Don't forget to write to Uncle Jake. We get paid tomorrow in marks. Will have to get a basket to carry it in, as marks are only worth a little over seven cents. Each town has a different piece of money.

Love to all. Your son, JAKE

Ulmen, Germany, May 4, 1919.

Dear Dad and Mother:

Your letter of April 6th came a few days ago. Came back to Ulmen yesterday and am going back to Ahreweil tomorrow for two days. Going by the way of Coblenz. It is seventy-five miles that way. I came down that way yesterday and stopped and saw Fallstrom and went out to see John Buckley but he wasn't there; will try it again. I went out to dinner yesterday and while packing my car who should pull in beside me but Lieut. Everson. He didn't know me, either; I had to tell him who I was. He surely was surprised. He is looking fine and makes a good looking officer.

I am having it pretty soft now; not much to do. The Major won't be back until the 27th of May. He tried to get a pass to take the car along with him but couldn't pull it. He is at Le Mans, not far from Paris; that sure would have been some trip.

The replacements are coming in next.

week, twenty-five a week to a battery, but I am way down on the list. We have been put in classes—the first class men that have sickness at home, the second are ones that have ailments, the third are the men needed for farming, the fourth are men that enlisted for the emergency. So I am in the fourth class and it will be some time before they get to us, but, anyway, I should like to come home with the division when it comes and don't think that will be many months off. I don't think that the U. S. is going to keep an army over here after peace is signed.

See by the papers they have given fifteen days to come to terms and if they don't, they will be cut off of food, so it is up to them to sign.

Did mother get her letter? Today is Sunday, nice and warm and the Dutch are out on dress parade. You surely see some funny outfits.

Well, Dad, must cut this as I have to take some officers to another town. Hope you are all well. Sure would like to be there May 30th. Just remember that is the day we landed over here. It will be just a year. Love to mother and granddad and tell him I would like to be there to march with him, but will be there next year. Did you get the box? Love, Your son, JAKE.

WELCOMED GEN. PERSHING.

Mr. and Mrs. John B. McPherson, of 408 Central Place, have received the following from their son, Clarence W. McPherson, who is with the Fourth Division, U. S. A. The message to the Dixon parents is a reproduction of a special newspaper story telling of that Division's reception to Gen. Pershing:

On board Gen. Pershing's special train through occupied German territory March 18—Gen. Pershing this afternoon completed an intensive inspection of the American Army of Occupation, lasting five days, with a brilliant review, which elicited the commander's unqualified praise of the Hard Luck Division, which drew the toughest area in conquered Germany, after having had its fine fighting record practically buried by the Marines and other units more fortunate in publicity.

The review of the forgotten 4th Division occurred on a cold, bleak, windswept plain lying in the snow-covered hills of the Rhine hinterland. Conditions of the review closely approximated of real motion warfare, for in order to appear in mass before the commander the 4th had to be assembled from all parts of the area of 800 square miles. Some of the battalions had to hike as far as 40 miles, and for three days the bulk of the division bivouacked in snow.

## Pile Suffers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as Miro Pile Remedy.

It has been proved that so called external remedies applied or inserted into the rectum cannot cure piles and at the best only give temporary relief. This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly passed on unchanged to the intestines in a short time, reaching the exact place where by its soothing, healing action, it first always all inflammation and then by direct contact with all ulcers and piles, causes them to heal and disappear forever.

It is positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operation really wonderful results have been accomplished.

The author of this amazing discovery desires all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively conquers even in the worst cases and he has instructed druggists all over the country to guarantee it in every case of blind, bleeding or protruding piles.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.

If your druggist cannot supply you we will gladly send either of the above mail charges prepaid on receipt of price. Internal treatment \$1.50, war tax 6c. Ointment 50c, war tax 3c extra. Guaranteed Remedies Co., Elyria, Ohio.
